ATLANTA – The LogistiCare Foundation is pleased to announce that 22 organizations have been awarded program grants totaling \$168,500. The average grant amount was just over \$7,000.

The Foundation concentrates its funding on programs that benefit members of the senior, disability and indigent communities. Ultimately, The Foundation strives to help increase access to healthcare and to improve the overall quality of life for these populations.

“We’re only in our third year, yet The Foundation already has had an impact on thousands of individuals through our support of program development and direct assistance for transportation,” said Chanda Forsythe, executive director of The LogistiCare Foundation. “Our success, though, isn’t measured by only grant dollars. We work very hard to develop strategic, ongoing relationships with the many organizations we have helped.”
